

## INSTRUCTIONS FOR POSTER SESSION AND ELEVATOR PITCHES BY POSTER PRESENTERS

Poster Presentation is scheduled for June 24, 2016 from the commencement of the workshop at 12:00 pm to its closing at 18:00 pm. Workshop participants will browse the posters, during the coffee break and later at the poster session.

**The poster session is open to all Workshop participants, including those whose poster will be displayed at the ICMCF poster session.**

At the registration desk of the Workshop, you will be provided with instructions on your poster location during the Workshop, as indicated by board number.

**Posters must be produced as A0 size in portrait orientation** [84.1 cm (width) × 118.9 cm (height) / 33.1 x 46.8 inches].

**Hanging time:** June, 24 at 12:00 pm.

**Removal time:** June, 24 at 18:30 pm.

Fixers will be provided to the presenters.

During the Joint Workshop Byefouling-Seafront, pre-selected poster presenters will be asked to give a **3 minutes Elevator pitch of their poster.**

**The poster presenters will be notified before June 1, whether they have been selected to prepare an Elevator pitch.**

***The Elevator pitch is a clear and concise statement of your research interests and experience that will be orally shared during a dedicated session. It has to create a memorable and positive impression and its main goal is to open the door to further discussion!***

In brief, the elevator pitch should explain:

- ✓ The research topic,
- ✓ the problems/questions that are addressed/asked in the research,
- ✓ why this is interesting and important in the field,
- ✓ how does it connect with a broader context.

**We encourage the presenters to illustrate their short talk with a maximum « 3-slides » powerpoint presentation.**

***Be enthusiastic and concise!***
